KHADIJA TARIQ

COMPUTER SCIENCE STUDENT

Wah Cantt, Pakistan | University of Wah | 6th Semester (2023 – Present) | khadijatariq717@gmail.com | 03209722717

CAREER OBJECTIVE

Motivated and detail-oriented Computer Science student currently in my 6th semester at the University of Wah. Passionate about building innovative software solutions, developing strong programming fundamentals, and contributing to real-world projects. Eager to apply my academic knowledge and technical skills to real-world projects, continuously learn, and contribute to impactful solutions.

EDUCATION

Bachelor of Science in Computer Science
University of Wah, Wah Cantt
(2023 – Present)
Currently in 6th Semester

INTERNSHIPS

- **POF Factory, Wah Cantt** (On-site)
  10 July 2026 – 20 August 2026
  (AI Intern)
- **Developers Hub Corporation** (Remote)
  13 April 2026 – 26 May 2026
  (Data Science and Analyst Intern)
- **CodeAlpha** (Remote)
  1 August 2026 – 30 August 2026
  (Backend Development Intern)

SKILLS

Programming Languages

- C, C++ (Intermediate)
- Java (Basics)
- Python (Intermediate)
- Dart (Intermediate)
- HTML, CSS, JavaScript (Basics)
- React (Basics)

Tools & Technologies

- Git, GitHub
- VS Code, PyCharm
- MySQL, phpMyAdmin
- MongoDB (Basics)
- Firebase (Basics)
- AWS (Basics)
- Microsoft Office

LANGUAGES

- Urdu – Native / Mother Tongue
- English – Professional Working Proficiency
- Punjabi – Beginner

EXPERIENCE

POF Factory, Wah Cantt (On-site) — 10 July 2026 – 20 August 2026
AI Intern

- Worked on AI-based projects including data preprocessing, model training and evaluation using Python.
- Assisted in developing intelligent solutions to improve operational efficiency and automation processes.

Developers Hub Corporation (Remote) — 13 April 2026 – 26 May 2026
Data Science and Analyst Intern

- Assisted in data collection, preprocessing and analysis using Python, pandas, NumPy and visualization tools.
- Worked on machine learning models and created analytical reports to support business decisions.

CodeAlpha (Remote) — 1 August 2026 – 30 August 2026
Backend Development Intern

- Developed and optimized RESTful APIs using Python and Django.
- Worked with databases and implemented authentication and security features.

PROJECTS

Smart Farming Ecosystem (FYP) — IoT | Python | Web | AI

- Designed an IoT-based system to monitor soil and environmental data, with a web dashboard for real-time analysis and AI-driven insights to help farmers make better decisions.

ZapDoc Scanner — Python | Flutter

- Built a document scanning app with OCR capabilities and a user-friendly interface using Python and Flutter.

Fake News Detector — Python | ML | NLP

- Developed a machine learning model to classify news articles as real or fake using NLP techniques.

Hospital Management System — MySQL | PHP

- Designed and implemented a database system to manage patient records, appointments and hospital operations.

Personal Finance Tracker — MySQL | PL/SQL | HTML/CSS

- Developed a web-based application to track income, expenses, budgets and goals with a secure database and user authentication.

CORE COMPETENCIES

Problem Solving | Analytical Thinking | Team Collaboration | Time Management | Communication Skills | Quick Learner
